

Introducing New profile in Bimetal Bandsaw for Fast cutting & Life enhancement

BIPICO FASTCUT

Specially designed tooth geometry for Fast cutting.

BIPICO GOLD M42 FASTCUT

| Sr. No | Size in MM | TPI |
|--------|------------|-----------|
| 1 | 27 x 0.90 | 3/4 & 4/6 |
| 2 | 34 x 1.10 | 3/4 & 4/6 |

Cutting application : Structural steel, Deep drawing steel, Machine steel, Spring steel, Medium alloy steel, Nitriding steel, Stainless steel

BIPICO PLATINUM M51 FASTCUT

| Sr. No | Size in MM | TPI |
|--------|------------|-----------|
| 1 | 27 x 0.90 | 3/4 & 4/6 |
| 2 | 34 x 1.10 | 3/4 & 4/6 |

Cutting application : Stainless Steel, Deep drawing steel, Machining steel, Quenched & Tempered steel, Case hardened steel, High alloy steel, High speed steel, Cast Iron steel

Overview :

Designed to break the chips & reduce chip load which will give Fast & smooth cutting.

Features & Advantages :

Fast cutting

Smooth Chip removal

Eliminate possibility of chips clogging & adhesion in gullet

Reduces noise & vibrations during cutting

Reduce blade breakage & Improved blade life
